How It Works

Choose your phone colour (ivory or pink)

We'll personalise your Audio Guest Book with your voice greeting.

We'll arrive and provide this display on it's own table, once powered it's ready to use straight away.

Let your guests leave plenty of messages capturing lifelong unforgettable memories.

At the end of the night we'll take it away and you'll soon receive a personalised pin protected YouTube playback with all your lovely messages in one place for you to keep. You can easily share it as you please.
